

Innovations introduced by JCS

ICCA Category Meeting, ICCA General Assembly 2006
Rhodes, Greece
29 October 2006

Chika Takahashi
Japan Convention Services, Inc. (JCS)
(INCON Group)

CARM

Convention Automated Registration Machine

Convention Automated Registration Machine

Merits

✓ Fast

With CARM, the handling time per person can be reduced to 30 seconds, while it typically takes 2 minutes at the conventional registration desk.

✓ Safe

CARM works as an ATM. Organisers need not to worry about the security of registration fees paid, including cash payments.

✓ Accurate

No need to count the number of registrations and on-site income. CARM provides these data automatically in real time.

✓ Various methods of payment

Cash (JPY, USD, EUR), Credit Cards, Debit Cards

Ideal Presentation Online System

Outline

- a. iPos is most suitable for Poster Sessions.
- b. Authors submit their PowerPoint files online prior to the meeting.
- c. PowerPoint files are automatically converted to the jpg format (web viewing style) and stored in the file server.
- d. Participants can search and view presentations anytime during the meeting and ask questions to authors by email.
- e. If the author allows, participants can send the presentation to their own email accounts.

Ideal Presentation Online System

Ideal Presentation Online System

Merits

✓ More discussion

Participants can ask questions to authors by email anytime during the meeting and even after the meeting.

✓ Less space

iPos requires less space than the conventional Poster Session.

✓ Database

A database of presentations is automatically built and can be accessed after the meeting.

Audio Spotlight

The Audio Spotlight is a revolutionary new audio technology that creates sound in a narrow beam, just like light. Aim the flat, thin speaker disc to your desired listening area, and provide all of the sound — with none of the noise.
